

## Dear Campers...

Dear Campers,

The Chazon Ish once said an amazing pshat in a Mamar Chazal. Chazal tell us "Gadol shimoosho yoser milimoodoh"- that serving is even greater than learning. That is the simple explanation. The Chazon Ish offered a deeper pshat. Limud is the words you say and the intellectual message you try and give over. Shimush is the tone and the expression you use. What Chazal are trying to impart to us is, that just as important or maybe even more important than what you say is how you say it. For us in camp, this is such an important message. We are faced with so many situations through the summer in which we can make or break someone's day. The smile we give our teammate after a great pass, the pat on the back or the words of encouragement after a strikeout, or even the willingness to include or sub ourselves out for a weaker player so we could all enjoy the game we're playing, it is moments like these in which we transform our day to day excitement in Camp from mere "fun" to moments of Aliyah. We have endless opportunities to not only improve our jump shot, but to improve our middos and mentshlichkeit as well. And between me and you, it's when we step up to the plate and make sure that everyone is having a blast that we realize that it's us who are gaining the most

Have a great Shabbos,

Rabbi Schonfeld

## This Week In Shiur

Dear Talmidim,

Nothing can cool off the excitement for learning groups in camp. It was a tremendous Kiddush Hashem to see so many boys involved in learning even as we have been temporarily misplaced from our classrooms.

In 7th Grade, Rabbi Shulgaser's shiur found an opinion, that if one doesn't make a Brocha on Matzah he will not be yotzeh since it is like stolen Matzah.

Rabbi Tropp's class has been toiling over a Tosfos about having to work when not doing Hashems will.

Rabbi Halberstadt's shiur got into a heated discussion about eating olives; exactly when it can cause one to forget his learning.

We were also privileged this past week to hear a Hespel on Rabbi Trenk Zt"l from Rabbi Tropp who knew him first hand. As Rabbi Tropp pointed out when he began speaking, in honor of Rabbi Trenk he did not use a microphone. Anyone who has ever heard Rabbi Trenk speak knows that his voice and his energy was so powerful, no outside help was needed. We too in camp try and create a ruach and a matzav where there is an enjoyable kol Torah (and some raffles and sodas as well!)

Keep on shteiging,

Have a great Shabbos

Rabbi Jacobovics

# From Beyond the Korn Field

Where is he? What happened to Baruch Korn? Was he kidnapped? Did Rabbi Schonfeld (I spelled it correctly, @Rabbi Fishberg. Inside joke) finally fire him like he had always dreamed? Or maybe worse? What if Rabbi Schonfeld KILLED Baruch Korn? He has the motive. After all, Baruch is much funnier than Rabbi Schonfeld, with a better beard, and is much better at baseball. I'll bet Rabbi Schonfeld chopped up poor innocent Baruch, and disposed of his body by using it as fishing bait! (We all know fishing is his favorite sport. Which reminds me, did anyone win a deep sea fishing trip during Deal or No Deal? My guess is that the Bulls made money, the Bears made money, and the Pigs (especially Ackerman's bunk) got slaughtered!!!) What if there's more? Maybe Sir Silverman the Grouchy was involved too? And no doubt Shimmy and the Black Magic Workshop had a hand in this foul play as well. After all, Lord Schonfeld could not possibly overpower Sir Baruch the Mighty all by himself. But then who's writing this article? The answer is none other than ME! Yours truly Baruch Korn, alive and well. And you were all soooooo scared. I write to you from a top secret, untraceable, undetectable, and utterly unfindable location in Israel. In the kibbutz of Har Etzion, apartment 415. And I am on an equally secret mission: To establish a Camp Eeshay Israel branch. (Obviously soccer will be the only league game, for all grades. We will also play a game called marksmanship- The older league will get to use bazookas.) I spent the last few days standing on street corners shouting and waving my camp t-shirt, hoping to get recruits. Unfortunately, this didn't work. The natives got so annoyed they threw me into the Mediterranean, which was full of jellyfish. After I got out of the hospital, I decided to get to know the lay of the land first, before trying again. So I toured the country, and here are the Fantastic Adventures of Baruch Korn!

I first went to the Golan. There, I toured a winery, sampled some of their finest, and escaped before they could charge me. I then went to the Golan Heights. And let me tell you, they are most high indeed. Perfect for throwing rocks over the edge. Not that I would ever do that... but hypothetically. The next day, I swam down part of the Jordan River (who was Jordan anyway?) and toured Tzfat. I cannonballed into the Arizal's mikvah (they just installed a new diving board) and yelled at everyone to get off the ropes. We did not need to have buddies. In Tel Aviv, I walked through the shuk, which was nice because it was hot, and the shuk had shade. After a hard ride southeast, I finally saw it. A huge stone wall reaching incredible heights, and stretching endlessly from side to side. This was it the kotel/kosel (I'm not getting involved. Fight it out yourselves). The last remnant of the Beis Hamikdash. A forever reminder of what was, and what could be. I had to get as close as I could. When I got to The Wall itself, I saw an inscription on the stone. It said "Made in China." This could not be. I put my hand on the wall, and realized that it was not even made of stone. It was just a blue screen. Apparently someone had been trying to make the world's biggest breakaway minyan. Looking back, I should have suspected that something was off. After all, I was in Hebron. Soon I will go to Jerusalem, and regale you with my Adventures there, but first I need to actually get there, and you need to pay for the rest of the Adventures of Baruch Korn. Price on demand. (Shwarma ain't cheap!)
